

PRESSURE VESSELS

Receiver Vessel

Liquid Trap Vessel

Vertical Intermediate Cooler Vessel

Horizontal Intermediate Cooler Vessel

Liquid Separator Vessel

All the vessels supplied are manufactured according to ASME Pressure Vessel Code Section VIII Division I Standard. They are made of all welded steel construction, anti-corrosion painted complete with oil pot where applicable.

The valves and controls* for these pressure vessels typically consist of:

- Stop Valves
- Safety Valves
- Solenoid Valves
- Check Valves
- Regulating Valves
- Float Valves
- Liquid Level Controls
- Sight Glasses
- Overflow Valves
- Pressure Controls
- Pressure Gauges
- Temperature Sensors

The Brands of the valves and controls used include (but not limited to):

- Danfoss
- Danvalve
- Hansen Technologies
- RS Parker
- Eliwell
- Dixell
- Tempress
- HERL

* Items may vary and are subjected to the nature of application.
